# Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 0 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 0 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (http://pair.uspto.gov)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

## Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: http://www.uspto.gov/main/howtofees.htm.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

## **DETAILED ACTION**

Examiner acknowledges receipt of IDS filed 12/18/01, response to election requirement and request for change of address filed 09/11/02 and response to supplemental election requirement filed 1/13/03.

## **Drawings**

1. The drawings are objected to as failing to comply with 37 CFR 1.84. Copy of Notice of Draftsperson's Patent Drawing Review, Form PTO-948 is attached. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

# Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: Tormala et al. (US 5,084,051) discloses a biocomposite material comprising porous or non-porous bioceramic block and porous polymeric component where the polymeric component is made of resorbable polymers (abstract, column 3, line 64-67, column 4, lines 19-52, column 6, lines 15-60 and claims 1-4). The polymeric component in Tormala's biocomposite material does not partially infused into the pores of the ceramic. Oka et al. (US 5,314,478) discloses a composite prosthesis that comprises polyvinyl alcohol hydrogel and a ceramic or metallic porous body; the hydrogel serves as a carriers for the porous ceramic body such that the porous ceramic body assumes the shape of the bone portion or articular cartilage it replaces allowing the bone tissue to grow into and ossify in the porous body (abstract, column 3, lines 13-41 and claims 1, 4 and 5). The polymer phase in the application is attached to the ceramic phase at an interphase region

Application/Control Number: 09/892,993

where the polymer infuses partially into the pores of the ceramic phase. The pending claims are thus allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicants' cooperation is respectfully requested in correcting any errors of which applicants may become aware in the specification.
